

September 11, 2022

Dear Mayor George P. Bray,

Hello, my name is Jacquie Lockett. I am 8 years old and I attend Concord Elementary. And I want to talk to you about recycling.

As we know, recycling is very good for the planet but not many people get the chance or have access to recycling. To find a solution to this these are the ideas I have come up with.

1. We could expand our recycling locations.
2. We could have free community recycling pickup vehicles.
3. Widen knowledge about recycling and the options available in our community.

In conclusion it would fight climate change and help save endangered resources. Thank you for taking the time-

to read my letter.

Sincerely,
Jacquise Lockett
